EECS 2311 – Group 1 Meeting Minutes

Date: Wednesday, January 17th, 2024

Group members: Anusha Masroor, Huiling Tang, Shreya Vaghani, Mai Komar, Elizabeth Ghreir, David Luu

- Discussed possible program ideas. Considered a show tracking app, restaurant recommendations app, and a goal setting app
- Spoke to the prof about how many features we need
- Decided to go with the Show tracking website

Project Proposal
Show Tracking website:
- Add your favourite shows to your list; receive updates including, new seasons, new episodes etc.
- View the top-recommended shows on Netflix, Amazon Prime, crave etc.
- Receive recommendations on shows based on your liked tags (it1)
- Receive notifications
- Give user preferences on how they want to receive notifications
- Create user accounts
- Comment and discuss with other users under the show/ movie
- Receive monthly newsletters/email notifications(The date the movie/TV show is released)
- Create charts/views of the user history and what genre/type the user streamed the most and make suggestions based on that(Analytics)
- Rating the shows 9   (it1)
- Login page
- (Optional) User can import their data from other streaming sites
